Professional Summary

Cloud & DevOps Engineer with hands-on experience in AWS cloud migration, Infrastructure as Code (Terraform), CI/CD automation, Linux administration, and cloud operations. Successfully migrated 300+ VMware virtual machines using AWS Application Migration Service (MGN), automated infrastructure deployments using Terraform, and implemented CI/CD pipelines using Jenkins and GitLab. Skilled in AWS, Docker, Kubernetes, Linux, Python, Shell Scripting, Monitoring, Networking, and Linux Troubleshooting.

Technical Skills

Cloud	AWS (EC2, S3, IAM, VPC, ELB, Auto Scaling, Route 53, CloudWatch, MGN)
DevOps	Terraform, Jenkins, GitLab CI/CD, Git, GitHub, Docker, Kubernetes, Ansible
Operating Systems	Linux (Ubuntu, RHEL)
Linux Administration	User Management, Package Management, Process Management, LVM, Log Analysis, Linux Troubleshooting
Scripting	Python, Shell Scripting (Bash)
Monitoring	AWS CloudWatch, Alerting, Incident Response
Networking	TCP/IP, DNS, Load Balancing, Security Groups, NACLs, Subnetting

Professional Experience

Trainee Engineer <i>Avasoft</i>	Oct 2025 – Mar 2026
- Migrated 300+ VMware VMs to AWS using AWS MGN with minimal downtime. - Automated infrastructure provisioning using Terraform, improving deployment consistency. - Developed and maintained CI/CD pipelines using Jenkins and GitLab. - Performed migration planning, validation, monitoring, and Linux troubleshooting activities.	
Cloud Engineer Intern <i>RR IT Solutions</i>	Jul 2024 – Dec 2024
- Provisioned AWS infrastructure using Terraform following IaC principles. - Designed and implemented secure 3-tier cloud architecture. - Configured VPC networking, load balancing, monitoring, and troubleshooting.	
Recruitment Executive <i>TRDFIN Support Services Pvt Ltd</i>	Feb 2023 – Dec 2023
- Reviewed 200+ resumes weekly and improved candidate matching accuracy by 20%. - Coordinated 50+ interviews monthly, reducing hiring turnaround time by 25%. - Managed 300+ candidate records and reporting activities.	

Projects

AWS Server Migration Project

Technologies: AWS, Python, Linux, Ansible

- Migrated 300+ on-premises servers to AWS with minimal downtime.
- Developed Python scripts for migration validation and reporting.
- Utilized Ansible automation, improving migration efficiency by 30%.

Automated Load Balancer Infrastructure Using Terraform

Technologies: AWS, Terraform, Auto Scaling Group

- Built highly available AWS infrastructure using Terraform.
- Configured ALB and Auto Scaling Groups supporting 1000+ requests per second.
- Achieved 99.9% uptime through automated scaling and fault-tolerant architecture.

Education

Master of Arts in English Literature
Auxilium College, Thiruvalluvar University
Bachelor of Arts in English
Auxilium College

Aug 2020 – May 2022

Jul 2017 – Jun 2020

Training & Certification

Cloud Computing (AWS, Linux, DevOps) – Besant Technologies
